

# Annual Gypsy Travellers Survey 2017

### Overview

The annual Travelling Persons survey was carried out in February 2017. The number of families responding totalled 12 this year, the same figure as 2016. 3 families/residents were unavailable (1 Ledaig, 2 Duncholgan) therefore the survey represents 80% of the available tenants broken down as below:

The site at Ledaig polled 6 of the 7 families resident (NB one family occupies 2 pitches).

The site at Duncholgan polled 6 out of 8 families resident.

The Torlochan site is currently unoccupied.

### **Results and Comments**

Results of the survey can be found in the graphs below along with numbers of responses for each question. Tenants concerns are of primary importance to ACHA; comments are fed back to Senior Management where an action plan is formulated.

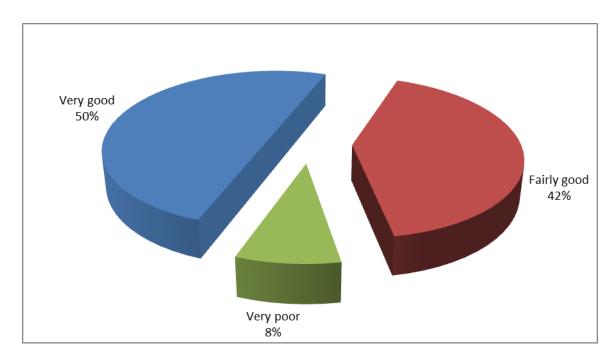

Question 5 is used to supply information for the Annual Return on the Charter (ARC) indicator 37. There has been another increase in tenant satisfaction from 84% in 2016 to 92% in 2017. Question 9 supplies information for indicator 16. Here there has been an increase in satisfaction from 67% in 2016 to 84% this year.

The questionnaire used was the same format as the 2016 version with the addition of one question to see whether tenants wished to have a lockable barrier at their sites.

# Methodology

Residents were visited personally by Housing & Neighbourhood Services Assistants using a questionnaire that is designed with to encourage feedback. Several visits were made to contact as many residents as possible for the widest possible feedback. There is a preamble to each question which explains the context in which the question is being asked. Strict confidentiality is maintained at all times. Equalities information can be found at Appendix 1.
