

Help with Gas & Electricity Costs

Due to the coronavirus, we are all having to stay indoors more. You may need to use more gas and electricity to heat your home. This can mean bigger bills which you may find more difficult to pay or you may need help immediately.

You may be able to access emergency fuel vouchers if you have a pre-payment meter which is running out and you have no money to top it up. You must have your own account with an energy supplier.

We will make the referral to Home Energy Scotland on your behalf. They are a free and impartial energy advice service funded by the Scottish Government.

We can also help you to apply to trust funds for grants which can help with any debt you have built up.
