

Pat McVey

Pat McVey
Isle of Bute
Tenant Board Member

My working life had been mostly spent in an office, being an estimator of steel parts for a large variety of industries. This included using computers for over 50 years, from the first incarnation and seen them develop to provide the vast array of tools so essential everywhere.

After retirement, for a number of years I became involved with a cafe for disadvantaged adults, teaching them how to use a computer.

Before becoming involved with ACHA, I have been involved in tenant groups both north and south of the border.

I have always felt it was right to be a good neighbour, in any way I could, to try to make even a small difference in peoples lives.

I hope that I can offer a tenants perspective in the board discussions.

Apart from helping with computers, which I still do from time to time, I have a motorhome which I enjoy touring this lovely country of ours.
