

TEST & PROTECT

A NEW WAY TO TACKLE CORONAVIRUS

The Test & Protect service from NHS Scotland will help us keep the rate of infection down and stop the spread of coronavirus.

If you have a cough, fever, or loss or change in taste or smell, you need to stay at home and request a test online at [NHSinform.scot/coronavirus](https://nhsinform.scot/coronavirus) or call **0800 028 2816** if you can't get online.

If symptoms worsen or last for more than seven days, call **111**.

If the test is positive, NHS Scotland will confidentially ask who you've spent time with recently. This is so we can let those people know they may be at risk, request they don't leave home, and offer them a test if appropriate.

Anyone could be asked to stay at home and not go out at all to keep your community and loved ones safe.

For more information go to [NHSinform.scot/coronavirus](https://nhsinform.scot/coronavirus)
